

# Bug-A-Boo Pest Control

Date: \_\_\_\_\_

Time: \_\_\_\_\_

Bug-A-Boo Pest Control will be entering your unit to treat for the bed bug problem. You must make the following preparations for this treatment:

1. Strip all bed linens from the beds and wash them in hot water.
2. Remove objects from floor.
3. Vacuum all rooms thoroughly.
4. Pull furniture and all other objects 12 inches from the wall.
5. Remove all objects from the windowsills.
6. Leave a note for the pest control technician advising him of the areas you have seen the insects.
7. You must be ready to leave the unit when the technician arrives.
8. You must take all of your pets with you when you leave.
9. Be prepared to leave for 1 hour.
10. Use your crack and crevice tool to thoroughly vacuum the mattress, baseboards and carpeting.
11. After the treatment, remake the beds with clean linens.
12. Ventilate the unit before reoccupying.

IF THE ABOVE PREPARATIONS ARE NOT TAKEN, WE WILL BE UNABLE TO THOROUGHLY TREAT YOUR UNIT. THIS MAY CAUSE AN EXTENDED TREATMENT PROGRAM.
